## COMPANY PROFILE

Established in 1994, Xinxiang City Ruifeng Chemical Co., Ltd. is a private-run joint stock enterprise integrating R&D, production and marketing. It has passed certification of ISO9001 and ISO14001 and been acknowledged as a hi-new-tech enterprise in Henan Province. It is now the largest producer of resin color developer and lubricant oil additive in China.

The company has a vigorous hi-tech force, a high-level management team and a R&D center equipped with advanced facilities. Its dominant products are 40000t/year Resin color developer (zinc salicylate resin color developer) used for production of carbonless copy paper and 50000t/year **lubricant oil additives**. The products are well sold on domestic market and exported to Europe, America, Asia and Middle East.

The quality of the products has reach advanced international level. The resin developer and Microcapsule are awarded invention patent in China. It has obtained PCT patent and American patent. American EPA registration and European REACH registration have been accomplished.

Lubricant oil addtives we are SINOPEC production base, we have exported large quantity to Europe, Singapore, South Asia, Middle east countries etc.

It's the strategic goal of the company to be a world supplier leading in technology in the particular field.

Service out of sincerity, we will serve our customers whole-heartedly.
